📍 57 Ranger St. South Signal, Taguig City

SUMMARY

A driven and detail-oriented IT graduate from Batangas State University specializing in Business Analytics. Proficient in SQL and web design, with strong skills in data analysis, problem-solving, and creating intuitive web interfaces. Passionate about applying technical expertise and analytical insights to deliver impactful solutions. Dedicated to contributing to organizational growth and success in the IT industry

PROFESSIONAL EXPERIENCE

On-The-Job Training | 2025

A Link Realty Inc. - Web Developer

- Developed and maintained the company's real estate website using WordPress, Astra Theme, Elementor, and Contact Form 7 with conditional logic.
- Integrated the Essential Real Estate plugin to handle property listings efficiently.

PROJECT EXPERIENCE

Outpatient Information Management System | 2024 - 2025

- Developed a web-based OPD management system for United Doctors of St. Camillus de Lellis Hospital and Medical Center, handling both front-end and back-end development, including user-friendly interface design, database integration using MySQL, and implementation of core functionalities.
- Enhanced hospital efficiency by automating appointment scheduling, resource allocation, and electronic health record (EHR) management.

PeakPath: Mountain Hiking App – Flutter/Dart | 2024

- develop a cross-platform hiking application with features including Home, Hiking Tips, Gear List, Saved Hikes, Contact, and a 7-day weather forecast for each mountain.

Online Scholarship Management System at Batangas City | 2023

- Designed and developed a scholarship application tracking and approval platform using PHP and SQL.
- Facilitated seamless application management for multiple scholarship programs
